

Introduction

CISA GROUP

When talking about real estate in Andorra, CISA inevitable comes to mind. Founded in 1972, the company has established itself as one of the market leaders and a benchmark for other real estate professionals. With customer satisfaction our main concern, CISA was the first developer and real estate agency in the Principality of Andorra to introduce the concept: INTEGRAL REAL ESTATE. Thus CISA is structured in such a way to bring together all the experts directly and indirectly linked to real estate, from conception on the architect's drawing board to construction and subsequent furnishing all in all, in order to offer the client a guarantee on the final product and it does not stop here. Even after completion the same customer care continues through our in-house management company CISA SERVEI, SL.

CISA has specific business divisions for every market segment: CISA for our own developments, LA IMMOBILIARIA PUNT COM S.A. – constructions in other areas, luxury properties through EXPLENDIA; PARCEL.LIA and LOCALIA for plots and commercial properties respectively. Our policy has always been to employ multi-lingual staff of a number of nationalities so that clients may be received in their own tongue preferably by a native speaker. At present we offer Catalan (the official language), French, Spanish, Danish, Dutch, German and Portuguese with Russian and Chinese interpreters on standby when needed.

CISA is continuing to look for solutions to the various problems that our clients, their neighbours or friends present to us.

It is normal and logical that something as precious and scarce as TIME, should be used to enjoy yourselves and not to solve problems that even though they may at times seem small, they could take you two or three days to solve.

In our concern to make your daily life the most enjoyable possible, whether you are residents, or just staying for few days in Andorra, we have created new services that together with the ones we have already offered you, will make our “Care of Keys” service even more attractive.

Among these services, there is the “Mail Box” service; we collect your mail, we keep it safely for you and if you wish we can leave it inside your property. No more problems with the mail in future.

We can also help you with Immigration formalities, getting and collecting documents, ITV (Technical Vehicle Inspection or MOT), STA, if you need

a new telephone line or internet connected, NORD ANDORRÀ or FEDA, electricity companies which we may need to contact one day to increase the power supply in your property to avoid power cuts at the most awkward moment.

If you wish to go out for dinner, who is going to look after the children? If you leave the country for a few days, who is going to water your plants? Please be assured. We can offer you the solution and take care of all the rest.

We must not forget the basis of this service which is the weekly inspection to your property to check that everything is in order and that there are no anomalies. Lights turned off, windows closed, taps, gas, fridge, ...

Furthermore, if you do not live permanently in Andorra, we can prepare your house for your arrival, organising the cleaning, turning the heating on, taking care of your laundry, purchasing the items you need if you are going to get to Andorra late, and finally, all that is necessary to find your place the most comfortable and welcoming possible on your arrival.

Testimonials

"My girlfriend and I recently bought an apartment in Ordino (Andorra) with the help of Marta Ibanez from Cisa. Marta only needed to show us a minimal amount of properties before we found one we really loved. Things progressed very smoothly and we were guided by her throughout the entire process. Also the translation of various documents from Catalan to English made the whole process a more enjoyable experience."

"In fact, after the purchasing process, we are able to speak very positively about the quality of service you offered. A pleasant manner, effective management and immediate answers to any doubts arising, you gave us the peace of mind and confidence necessary for this type of transactions. Thank you for everything."

"Dear Sirs,

We are writing this letter to express our great satisfaction with the services offered by yourselves.

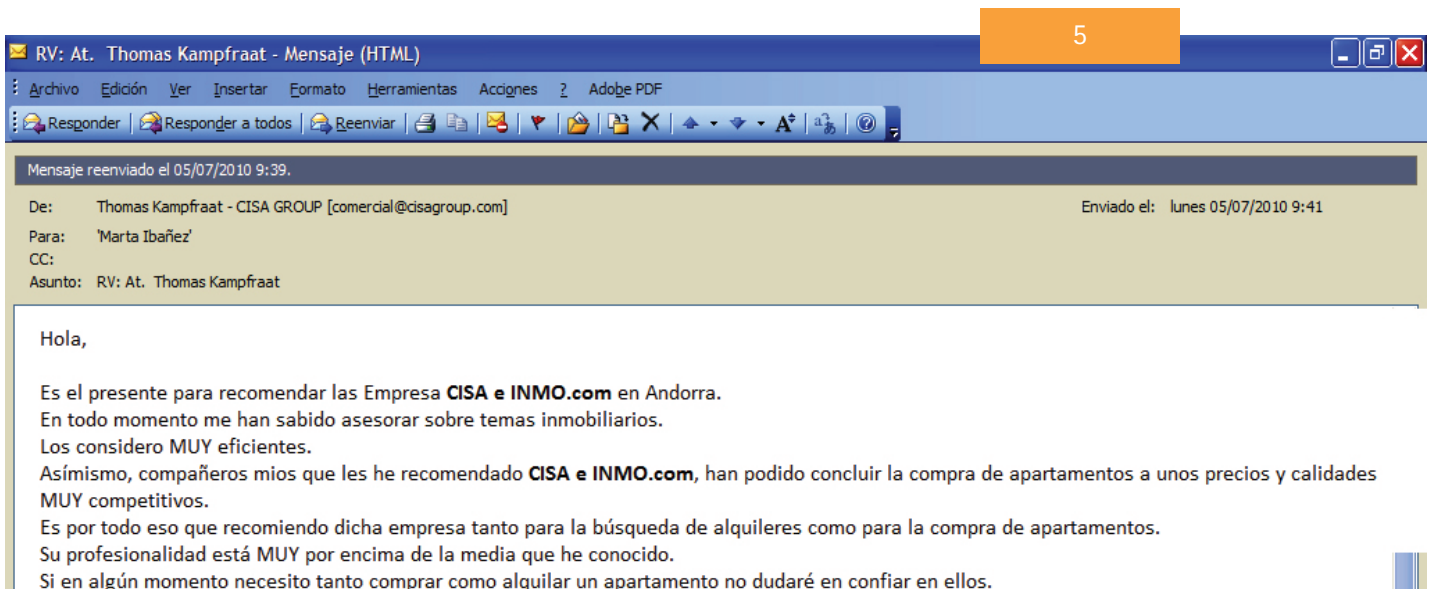

In particular we would like to thank the sales team who helped us, for their professionalism and for their ability to understand what we were looking for right from the start. We were shown apartments which corresponded exactly with the specifications we had indicated and the sales team made themselves available for visits and negotiations at the times which best suited us. We would also like to draw attention to their ability to select the best layouts and aspects considering all the different pros and cons of the properties offered. We would like to indicate our satisfaction with the modus operandi of CISA, which made it possible us to find what we were looking for in a very short space of time and also they have enabled us to save a lot of time by taking care of all the sales formalities, arranging the appointment with the notary etc.

For all of this, thank you. There is no doubt that we will always recommend this company to friends and acquaintances.

Yours sincerely, The Aparicio – Pons family"

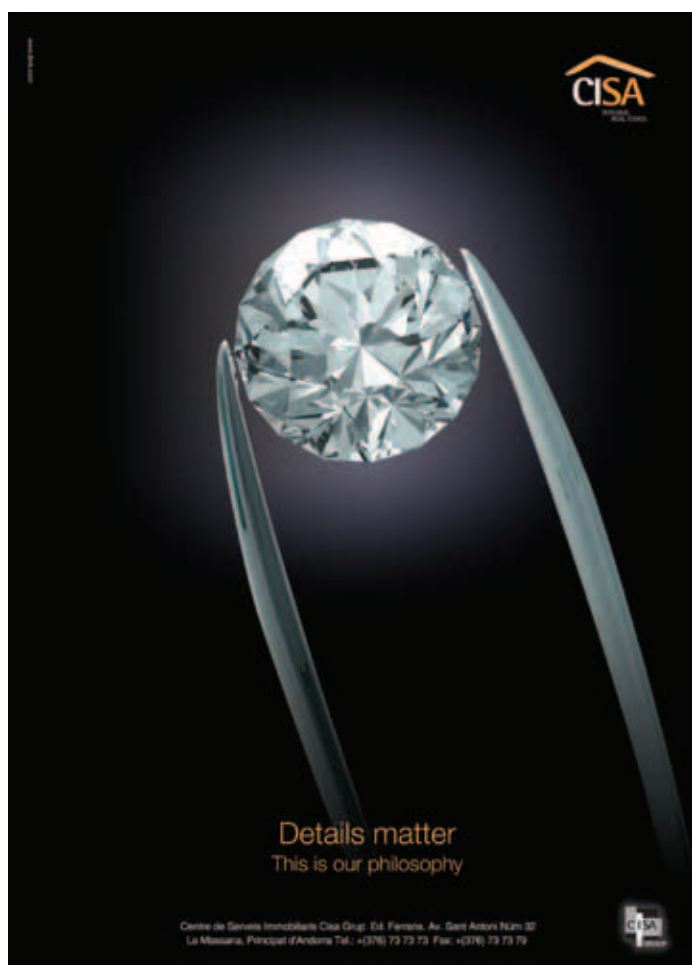

"My husband and I decided to move to Andorra. We were lucky to read an article on an Award winning project of Cisa in Andorra which motivated us to contact them. Since then we have bought a house through Cisa and will continue to work with them while restoring it. They have been very helpful every step of the way and continue to be helpful."

"This is to recommend CISA and INMO.com in Andorra. They have always given me good advice about real estate matters. I consider them to be very efficient. At the same time clients who I have been able to recommend CISA and INMO.com have been able to complete their purchase of quality apartments at very competitive prices. It is for this reason I also recommend these companies both for the purchase and rental of apartments. Their professionalism is way above the average I have experienced, If you ever need to buy or rent an apartment, do not hesitate to trust in them."
